Serving Sydney for over fifty years, we couldn't be prouder of everything we have achieved for our community.

Frequently Asked Questions

Is dental implant surgery painful?

The process of dental implants is usually one which is well tolerated by the majority of patients. It is precise and generally causes minimal discomfort which is well managed by standard pain relief. Each patient is different but most will feel comfortable after 2-3 days. It can be likened to a basic extraction.

Can I get dental implants on a payment plan?

Payment plans are available by external companies who offer standard terms. In house plans are also possible based on the quantity of treatment and duration.

Are dental implants covered by health insurance?

Each health insurance provider differs in their level of cover and will be based on individual agreements with the health provider. Those with major cover will be entitled to some benefit for the implant and then the crown/teeth on top.

Which dental implants are the best?

Most titanium or zirconia implants will integrate well with the bone. There are countless implant companies however and many differences with each. This included the ability to use special components which can influence the quality and aesthetics of the teeth on top.

It is best to go with a well-established implant brand which has decades of experience and will have parts available long term. This allows any dentist to source the components required many years down the track.

THE DENTAL PRACTICE

Dental Check-Up Burwood, NSW

THE DENTAL PRACTICE

Why are Dental Check-Ups Important?

Having a healthy mouth means more than just a bright smile. Caring for your oral health involves an understanding of its importance and impact on your overall health. This is why our Burwood dentists at The Dental Practice have developed a dedicated health and hygiene programme as part of our commitment to you.

Should I maintain Active Maintenance?

Avoid the major problems all together by closely monitor your oral health in order to diagnose any irregularities early, preventing gum disease, tooth loss and reducing the need for extensive restorative procedures. Our entire team is dedicated to helping you achieve and maintain healthy teeth, healthy gums and a beautiful smile for life.

Frequently Asked Questions

Is there parking available at your Burwood practice?

Easy Parking so you can Access Leading Dentistry Just Off Burwood Rd
Are you driving to your appointment? No problem! We are fortunate enough to have ample street parking available on Burwood Road, which is free for 2 hours between the times of 9 am to 3:30 pm.

Do you offer emergency dentistry appointments?

Yes, Emergency Dentistry in Burwood is Now Available!

When you call us the reception staff will assess your emergency by asking a series of questions to access the severity in order to arrange an appointment with one of our clinicians. They will also provide information on how to handle your emergency before your appointment.

In-Chair Teeth Whitening Burwood, NSW

Judy Mikhail

Professional In Chair Teeth Whitening

At The Dental Practice, we offer professional in chair teeth whitening treatments designed to provide immediate and noticeable results. Our state-of-the-art dental facility and skilled dental professionals ensure a safe and comfortable experience, delivering stunning outcomes for our patients.

Benefits of In Chair Teeth Whitening

Immediate Results - Patients can achieve a visibly brighter smile in just one session.

Professional Supervision - The procedure is overseen by experienced dental professionals, ensuring safety and efficacy.

Customised Treatment - Each treatment is tailored to the patient's specific needs, providing personalised results.

Teeth Whitening Frequently Asked Questions

How does in-chair teeth whitening work?

In-chair teeth whitening generally involves the application of a whitening gel which may or may not be activated by the application of a special light. Generally this procedure takes up to an hour and it will not require a series of appointments as the results are generally achieved within the one teeth whitening session.

How long does teeth whitening last?

Typically, teeth whitening may last 12 -24 months. However with regular use of the home whitening kit, results can last for much longer. Other factors such as smoking, poor oral hygiene and diet can affect the longevity of the results.

Porcelain Veneers Burwood, NSW

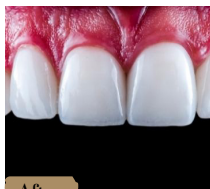

What is a Porcelain Veneer?

A veneer is a finely crafted shell like piece of porcelain placed on the front surface of your tooth. Veneers are an exceptional way of masking teeth with imperfections such as mild discolouration and chips. Veneers can also close gaps and improve slightly crooked teeth without undergoing orthodontic care.

Before

After

What benefits are there to getting porcelain veneers?

✓ **Never worry about what you eat or drink:**

You can eat all the foods you like due to the porcelain material in veneers being stain resistant you never have to worry about discoloured teeth in the future.

✓ **Lifts the tooth's profile:**

The process of cementing the porcelain veneers over the tooth surface makes veneers a great solution for restoring worn down teeth back to their original size and shape.

✓ **Fixes chipped or broken teeth:**

By utilising our 3D digital scanner we are able to scan broken teeth and create porcelain cover that matches the broken shape of each tooth.

✓ **Fastest solution for poor alignment or gaps:**

Veneers are able to influence the alignment of your teeth and even fix gaps without having to go through months of Orthodontic treatment.

Porcelain Veneer Frequently Asked Questions

Should you consider veneers?

Before deciding if your teeth are suitable for porcelain veneers, it is important that your gums are healthy and your oral hygiene routine is strictly adhered to.

Porcelain veneers are an ideal option if you would like to:

- Improve the shape and colour of your teeth.
- Straighten mild to moderately crowded teeth.
- Improve appearance where teeth are healthy or slightly damaged.
- Close gaps
